Induction QR Code

The QR code can be scanned on site, instead of typing in the induction code manually. If a webcam is plugged into the enrolment machine, a "Scan QR code" button will appear next to the box you'd usually type the induction code into.

This QR code will be emailed directly to the operative once they have completed their induction.

QR Code Email

The QR code will be emailed directly to the operative once they have completed their induction.

Dear John Smith,

Thank you for completing the online induction on Thu Aug 18 09:29:46 2022 GMT.

To enroll on a site you must take the following code with you: JS-ZBD-R2V.
This code can also be scanned using the attached QR code.

You will also need to register your fingerprints when you get to site to use Biosite Access Control.

Local System Scan QR Code Button

If a webcam is plugged into the enrolment machine, a **Scan QR code** button will appear next to the box you'd usually type the induction code into.

The screenshot displays the BIOSITE online induction system interface. At the top, the BIOSITE logo is visible on the left, and the user's session information is on the right, including 'Lex Company', 'West Slade Run View', 'Operatives on site: 13', and 'Licence expires: Friday, 14 June 2030'. Navigation icons for 'Site Monitor', 'Main Menu', 'Fire Rollcall', and 'Logout' are also present.

The main content area is titled 'Online Induction Code' and features a progress bar with 12 steps: 1. FINGERS, 2. ACCESS, 3. INDUCTION, 4. CODE (highlighted in green), 5. SEARCH, 6. PHOTO, 7. PERSONAL, 8. SITE, 9. HEALTH, 10. CORPOR..., 11. EDUCATI..., and 12. CONFIRM.

Below the progress bar, a message reads: 'Please enter the induction code you have been given or click the button on the right to scan your QR code.' This is followed by an 'Induction Code' label and a text input field containing the placeholder 'Enter your code'. To the right of the input field is a blue button labeled 'Use QR code', which is highlighted with a red border in the image.

At the bottom of the page, there are two buttons: '« Back' on the left and 'Next »' on the right.

Scan QR Code With Webcam

The operative can then show the QR code they were emailed on their smartphone and the webcam can scan the code.

Support

Biosite provide user support from 7.00am – 6.00pm Monday to Friday (exc. Public holidays)
